

# Washington Report

by GEORGE ANDREWS  
Member of Congress  
Third District of Ala.

President Nixon can be thankful that Congress is made up of two equal bodies. His actions in Cambodia got him a swift kick of disapproval from the Senate—but the House of Representatives was ready with some handy first aid.

The Copper-Church Amendment was the product of months of wrangling in the Senate. It was bad legislation, harmful to our war effort, and probably unconstitutional since it drastically infringed on the President's power as Commander-in-Chief.

It was tucked onto the Foreign Military Sales bill by the Senate before it came to the House for action. Clearly it was the handiwork of Senate doves who seem to be in the majority in that body, although the mood of the Nation hardly seems to support their position.

The House gave the Amendment about five minutes of its time. It deserved no more than that, and a majority of the House exercised great wisdom in recognizing the fact.

In what is now interesting history, the fairly certain death of the Copper-Church Amendment came with House approval of a move to table a motion to instruct House conferees to support the amendment when they meet with Senate members in joint conference on the Foreign Military Sales Act.

For a matter that had occupied the Senate almost constantly, the House vote on Copper-Church was not even close. The motion to table carried by a 237 to 153 margin.

My opposition to the

## SPIDER MITES CAN DESTROY ORNAMENTALS

A lot of Coffee County home owners don't realize it, but spider mites are running rampant on ornamentals. They are just about the most serious pest on roses, boxwoods, azaleas, hydrangeas, junipers, privets and carnations.

They vary in color. Some are green, others are orange, red, brown, black or a combination of these. A lot of them are red, but they are not the same as the red spider mites which is a systemic. The material is applied to the soil in the spring and watered into the root zone. Don't waste time on dusts because they are not effective. Plants can also be sprayed with Tordon or Kelthane. Be sure to cover the leaves.

## MIDDLE AGED AT 27?

In 1920 when the average life expectancy was 54, a person 27 had lived half his life. Now thanks to amazing scientific discoveries, the average life expectancy is over 68 years.

Medical science has also made advances which permit longer life of today to be a healthier, more pleasant one.

See your doctor for the latest developments in geriatrics. If he should prescribe one of the older, less effective drugs, ask for the best—prescription service possible.

## YOUR (Neat) PHARMACY

Elba Drug Company

ment is in no way an indication that I approve of the overall military strategy being employed by this Administration in Vietnam. I have long advocated a military victory.

Unfortunately, I see no evidence to indicate that President Nixon shares my views on this. I see, instead, a continuation of the

of gradualism carried on by President Lyndon Johnson and his Defense Secretary, Robert McNamara. The Copper-Church Amendment would have prohibited the President from taking any action to help Cambodia or any other country which might help Cambodia. It was a spe-

ket for the Commander-in-Chief.

I find it rather frightening that every tactical movement out of our forces make in Vietnam should require prior approval of armchair generals like Edward Kennedy, George McGovern, J. William Fulbright, and others of their persuasion in Congress.

a great many other members of the House felt likewise when they buried the Cooper-Church Amendment.

Sanctuaries in Cambodia or anywhere else should be bombed out of existence if they pose a threat to the lives of our brave young men fighting in this bloody war. In fact, Hanoi

bombed as well.

However, this Administration has ruled out a military victory and announced that we are getting out of the war. If we are not going to try to win it, we certainly ought to get out, and as quickly as possible.

Supporters of the Cooper-Church Amendment are doing the Nation a great disservice.

complexity or winnowing with some semblance of honor.

If their aims are sincerely motivated, they should take another look at the problem. If their aims are based on purely partisan politics, they should be ashamed, because they are doing the Nation a great disservice.

ELBA, ALABAMA 36324, THURSDAY JULY 30, 1970 NUMBER 2

## Drexel Cook Elected Gas Board Chairman

Drexel Cook, Elba Chevrolet dealer and native of Coffee County, was elected chairman of the State Oil and Gas Board last Friday.

Cook was appointed to the Board, along with Julian Maddox of Lurvenne, by Gov. Albert Brewer last month. The board's third member is former state Senator E. O. Eddins of Demopolis. His term expires in 1972.

The Board supervises oil and gas exploration, drilling and production in the state.

## Two Soldiers Charged Here In Drug Case

Local police officers arrested two Ft. Rucker soldiers Sunday night in Whitman's Drug Co. and charged them with possession of a stimulant or depressant drug.

This is a felony and they are now in the Coffee County jail awaiting action by the Grand Jury. Bond was set at \$1,000 each.

The two soldiers are Bill H. Leandro and Jalne Negrette. Leandro is now in Levey Stephens, Jr., will seek the Grand Jury indictment and will lead the prosecution in Circuit Court if an indictment is returned.

The new beauty queen is

## Kinston Beauty Named Farm Bureau Queen

Kem Pierce, daughter of Mr. and Mrs. T. W. Pierce of Kinston, was named the Farm Bureau Beauty Queen for 1970-71 at the annual meeting in Enterprise last Thursday.

Ann Johnson of Enterprise was named alternate in case Miss Pierce finds it impossible to fulfill her duties during the year.

Miss Pierce, a graduate of Kinston High School, is an 18-year-old beauty, standing five feet, five and one-half inches tall and is very active in church affairs. She recently won first place in singing, sewing, and cooking.

As Coffee County Farm Bureau Queen, she will receive an expense paid trip to the State Convention in Mobile where she will compete for state honors. She was presented a check for \$50.

## HORSESHOW WINNERS

The Elba American Legion Culver Post #42 held its fifth annual horse show Saturday, July 25. Judge of horses was Harry Dees and ring steward was Lois Locke (Mrs. Les Locke). The show was considered a great success by the sponsors. The event was at Legion Field on Troy Highway.

High point winner (13 and under) was Sharon Benton on Chipley and high point senior winner (14 and over) was Andy Lockard of New Brockton.

Trophy and four ribbons were given in each event with high point trophies for junior and senior events. The show was approved by the Northwest Florida-South Alabama Horseman's Association.

Winners of the other events were as follows: Pony Class, Harriette North of Ft. Rucker; first, Mamy Morrison of Dothan, second and Shane Bullock of Elba.

Costume Class, Darwin Burrough of New Brockton, first; Sherrill Lynn Kelley of Elba, second; Jerry Moore of Kinston third.

Western Pleasure, Jr., Kervin Rudd of Newton, first; Shawnee Jones of Newton, second; Nancy Anderson of Newton, third; Cathy Morrison of Dothan, fourth, and Chris Kneiss of Chipley, fifth.

Western Pleasure, Sr., Bob Lawrence of Troy, first; Les Bonner of Slocomb, second; Bill Miller of Dothan, third; Joan Whigham of Enterprise, fourth; Debbie Metzger of Ozark, fifth.

Plantation Open, Bandy Strickland of Ozark, first; Charles Barnes of Chancellor, second; Junior Jackson of Elba, third; Jim Grantham of Ozark, fourth; Lucy Stephenson of Dothan, fifth.

Open Pleasure, Jr., Sharon Benton of Chipley, first; Nancy Anderson of Newton, second; Kervin Rudd of Newton, third; Chris Kneiss of Chipley, fourth; Tony Morrison of Dothan; fifth.

Open Pleasure, Sr., Bob Lawrence of Troy, first; Debbie Metzger of Ozark, second; Linda Spearman of New Brockton, third; Joan Whigham of Enterprise, fourth; Louis Willford of Slocomb, fifth.

Western Horsemanship Jr., Nancy Anderson of Newton, first; Sharon Benton of Chipley, second; Chris Kneiss of Chipley, third; Kervin Rudd of Newton, fourth; Sherrill Kelley of Elba, fifth.

Western Horsemanship Sr., Pat Wells of Cottonwood, first; Bill Miller of Dothan, second; Leo Bonner of Slocomb, third; Debbie Metzger of Ozark, fourth; Sheila Sizemore of New Brockton, fifth.

100 Yard Dash, Jimmy Spearman of New Brockton, first; Marvin Hill, second; Andy Lockard of New Brockton, third; Les Boyd of New Brockton, fourth; Buck-Up Joe-Bettine Taylor of Marianna, fifth.

Walking Horse Pleasure, Wayne Medley of Enterprise, first; J. Jackson of Elba, second; Bill Farris of Elba, third; Lonax Martin of Coffee Springs, fourth; Paul Hudson of Elba, fifth.

Walking Horse Open, Merle Wise of Elba, first; J. Jackson of Elba, second; Chris Wise of Elba, third; Jack McWaters of Troy, fourth.

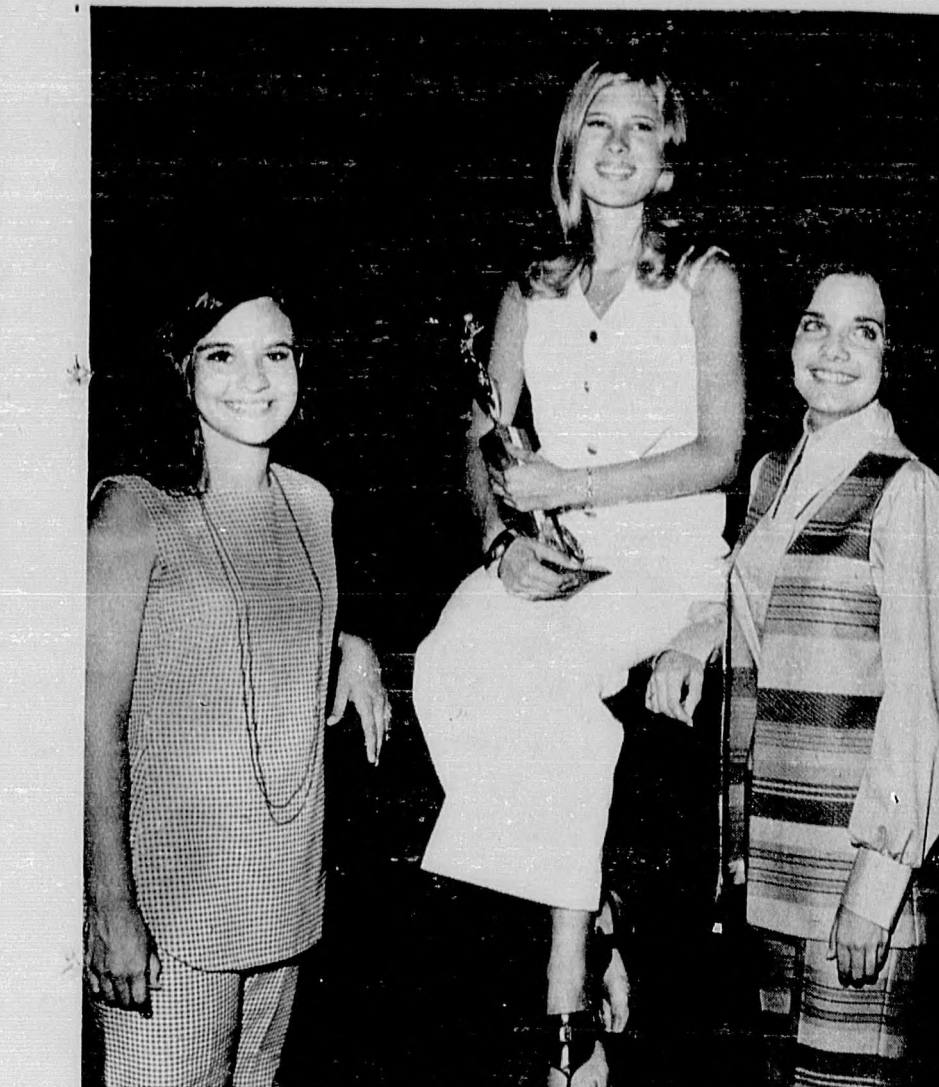

Pole Bending, Jr., Billy Parker of Slocomb, first; Larry Williams of Ozark, second; Sara Jones of New Brockton, third; Kervin Rudd of Newton, fourth.

Pole Bending, Sr., Bill Miller of Dothan, first; Fred Davis of Opp, second; Kenneth Conrad of Enterprise, third; L. M. Flowers fourth.

Cloverleaf Barrels, Jr., Sara Jones of New Brockton, first; Larry Williams of Ozark, second; Kim Killard of Enterprise, second; Larry Williams of Ozark, third; Brenda Slaty of Opp, fourth; Billy Parker of Slocomb, fifth.

Arena Race, Jr., Andy Lockard of New Brockton, first; Rexie Taylor of Marianna, second; Marvin Hill of Enterprise, third; Bill Taylor of Elba, fourth; Jimmy Spearman of New Brockton, fifth.

Personal Pickup, Andy Lockard of New Brockton, first; Rexie Taylor of Marianna, second; Kenneth Connors of Samson, third.

ELBA BEAUTIES GRACE BAND CLINIC

Elba High School was well represented at the Troy State University Band Camp and Director's Clinic when two Elba girls were selected first and second runners up to the Rhoda Solomon, a green-eyed beauty from Headland.

They were Vicki Taylor, first runner-up, and Lynn Marsh, second runner-up.

Vicki, daughter of Mr. and Mrs. Holloman Taylor, is a brown-haired, brown-eyed sophomore. Her hobbies include swimming, sewing and dancing. She is a member of the school's color guard, and received special technique instructions during the camp.

Lynn is the daughter of Mr. and Mrs. Robert Marsh and will be a junior during the 1970-71 school year.

She has brown hair and blue eyes and enjoys the outdoors and skiing. She attended the camp and participated in the drum major division.

Herbert L. Oakes, president of Dorsey, commented that the corporation had been increasing its shares of the growing glass bottle market and that its glass business was benefiting from soft drink suppliers' new emphasis on larger sizes and design innovations, such as screw caps. He continued that the increased costs of manufacturing plastic bottles resulting from the innovative practices and reduced productivity arising from labor union demands for higher wages and machine repairs were, however, reflected in the first half's narrower profit margins and can continue to have some effect on earnings in the second half.

Mr. Oakes stated, however, that he looked for both sales and earnings to improve in the second half of the year if anticipated production efficiencies materialize.

"Our trailer business contributed increased earnings in the first half year," Mr. Oakes stated, "although sales were off, reflecting the softer economy. An intensive company-wide cost reduction and profit improvement program is under way and we are beginning to see some benefits."

## Army Cancels Contract For Rucker Pilot Training

The U. S. Army has taken over flight instruction operations at Ft. Rucker following a log jam between striking workers of the International Association of Machinists and Aerospace Workers and an Army contractor.

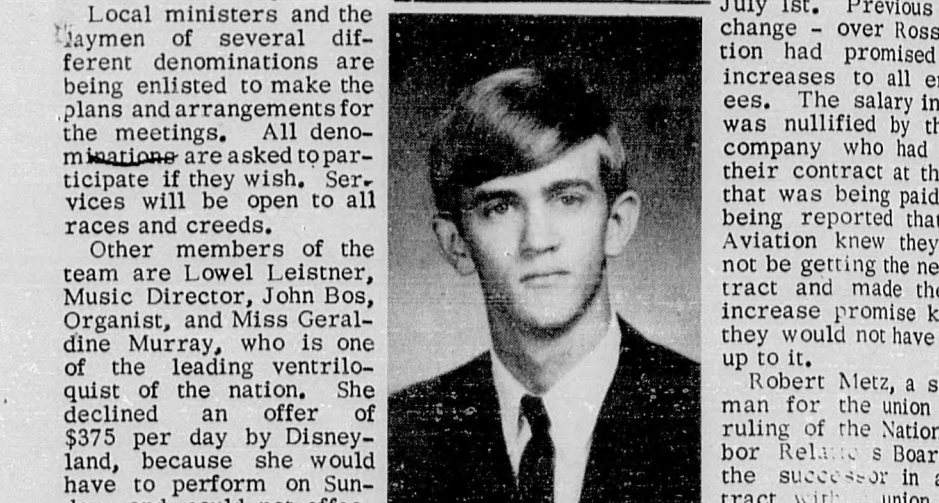

The Army said it took the action at noon Monday following a breakdown in negotiations between Local 2003 of the union and the new training contractor which resulted in a strike July 14.

Some 430 union members are affected by the lock-out.

The Embury Riddle Aeronautical Institute took over the contract of the old contractor, Ross Aviation, July 14. Previous to the change - over loss Aviation had promised wage increases to all employees. The salary increase was nullified by the new company who had made their contract at the wage that was being paid. It is being reported that Ross Aviation knew they would not be getting the new contract and made the wage increase promise knowing they would not have to live up to it.

Robert Metz, a spokesman for the union said a ruling of the National Labor Relations Board says the success of a contract with the union "must follow the terms of the original contract."

It is reported that Army officials had given Embury Riddle and the union two weeks to iron out their differences. When they failed to reach an agreement Army officials at Ft. Rucker said military instructors had taken over instructions of both fixed and rotary wing aircraft.

Ken Manring Is Youngest To Receive Pilot's License

Ken Manring, an Elba youth, recently graduated from a local flying school. He is the son of Mr. and Mrs. Barney Manring of Elba.

Ken completed his flight training and graduated from the Tri-C Aviation private pilots course. He is 17-years of age and the youngest student to receive a pilot's license in the City of Elba.

## Dorsey Corp. Announces High Sales-Low Profit

The Dorsey Corporation, Chattanooga, Tennessee, a leading manufacturer of glass containers and cargo trailers, reported increased sales and slightly reduced earnings for the second quarter and first half year ended June 30, 1970. In the three months ended June 30, 1970, sales rose to \$22,000,000 from \$20,853,000 in the second quarter last year. Net earnings were \$926,000 or \$34 per share in the latest three months, compared with \$2,100,000 or \$81 per share in the first half of 1969. All per share earnings are calculated on a fully diluted basis.

In announcing these results, Herbert L. Oakes, president of Dorsey, commented that the corporation had been increasing its shares of the growing glass bottle market and that its glass business was benefiting from soft drink suppliers' new emphasis on larger sizes and design innovations, such as screw caps. He continued that the increased costs of manufacturing plastic bottles resulting from the innovative practices and reduced productivity arising from labor union demands for higher wages and machine repairs were, however, reflected in the first half's narrower profit margins and can continue to have some effect on earnings in the second half.

Mr. Oakes stated, however, that he looked for both sales and earnings to improve in the second half of the year if anticipated production efficiencies materialize.

"Our trailer business contributed increased earnings in the first half year," Mr. Oakes stated, "although sales were off, reflecting the softer economy. An intensive company-wide cost reduction and profit improvement program is under way and we are beginning to see some benefits."

## Schroeder Named President Of Directors Group

Gene Schroeder, Executive Director of the Organizational Community Action Program, has been elected President of the Community Action Agencies Directors Association of Alabama.

This announcement comes from the annual meeting held on July 24th, in Montgomery, when the Directors of Alabama's 24 Agencies met to elect new officers.

It has been through the efforts of the Association that Alabama has received 39 million dollars from the Office of Economic Opportunity, Department of Labor and the Department of Health, Education and Welfare.

Schroeder served as Executive Director of OCAP since 1967. OCAP served Bullock, Coffee, and Pike Counties with an annual budget of over one million dollars.

The Association serves fifty Alabama counties.

## Farm Bureau Annual Meet Held July 23

The annual Farm Bureau barbeque was last Thursday at the Enterprise High School.

Prominent among the activities was the election of officers, selection of the Farm Bureau Queen, and a report of the president and secretary-treasurer. Doug Rigney, State Farm Bureau representative, stated that Coffee County has some of the best leadership of any county in the state. Coffee County has 2,200 members of the State's 18,000.

The Reverend John Williams of Ozark, second; Larry Williams of Ozark, second; Sara Jones of New Brockton, third; Kervin Rudd of Newton, fourth.

Personal Pickup, Andy Lockard of New Brockton, first; Rexie Taylor of Marianna, second; Kenneth Connors of Samson, third.

## County Cattleman Plan Tour On Saturday

The Coffee County Cattleman's Association is sponsoring a pasture tour and beef cattle tour, Saturday afternoon, August 1st, activities to get underway at 2 o'clock.

The first part of the tour will be at the Paul Windham farm and continue to the W. H. Taylor farm. A beef-burger supper will be served by the Cowbells at the W. H. Taylor farm at 6 o'clock following the tours.

Harold Hudson, president of the Cattleman's Association, urges all members to attend this tour and extends a special invitation to boys of the Jr. Cattleman's Association to attend.

## Dorcas Plans Revival Next Week

Revival services will be held at the Dorcas Baptist church, in the Chestnut Grove Community, beginning August 2 and continuing through the 7th. Services will be held each evening at 7:30 p. m.

The Reverend John Williams will be the evangelist.

The pastor, the Reverend Wade Atwell, extends an invitation to everyone to attend any or all services.

## Bride-Elect Feted At Shower

Miss Marsha Lowrey, the bride-elect of Butch Oggs, was entertained July 22nd with a miscellaneous shower at the Elba County Club.

Hostesses were Mrs. Helen Kellner, Mrs. Agnes Plant, Mrs. Marcus DuBose and Mrs. John Taylor.

Upon their arrival, the guests were registered in

## Annual Fuller Reunion Event Of Sunday, July 5th

The children of Arthur and Anna Fuller held their annual family reunion at the home of B. M. Fuller, Route 1, Elba. The event was held Sunday, July 5, the first Sunday in July. Those enjoying the picnic of fried chicken and all the trimmings were: Mr. and Mrs. B. M. Fuller, Route 1, Elba; Mr. and Mrs. Barney Wise (Annie Foy), Samson; Mr. and Mrs. Fletcher Fuller, Elba; Mr. and Mrs. Paul Harrison (Tassie), Route 1, Elba; Mr. and Mrs. Bill Fuller and Ronnie, Samson; Mr. and Mrs. James Fuller, Lake Palmd, Florida; Mr. and Mrs. Jesse Harris (Alice), Cathy; Marcus and Lavanna, Lake Palmd; Mr. and Mrs. Frank G. (Dora) and Howard, Enterprise; Mr. and Mrs. Frank Goodson (Carolyn), Gloria, Seabrin, Florida; Mr. and Mrs. Gerald Fuller, Kinney, Jimmy and Terry, Lake Palmd; Mr. and Mrs. Dewey Barefoot (Betty Jean), Ralph and Martha Ann, Andalusia; Mr. and Mrs. Charles Wise, Larry, Kenneth, Michael, Tim, Sandra and Joe, Elba; Haccoda, Miss Judy Ezell, Haccoda; Mr. and Mrs. Ernest Bogart, Miss-

## Members Attend Convention

The Alabama Meat Packers State Convention was held on the Auburn University Campus July 17th and 18th. Packers from all over the State were present. Programs pertaining to meat processing were scheduled throughout the two-day convention. Dr. J. B. Taylor, Director of Alabama Meat Inspection Program (formerly of Elba) was program moderator for a panel discussion on Friday afternoon. On program with Dr. Taylor were: Dr. Lee G. Sutherland, Federal State Cooperation Officer, Montgomery; Dr. M. J. Hatter, Director, Southeastern Consumer Protection, Atlanta, Georgia; and Dr. J. D. Willis, Deputy Director of Processing, Atlanta. Dr. Ray Cavender of Auburn University was host

## Elba Tourists Visit Island

Miss Dixan King, Miss Harriette Bullard and members of the local European Tour Group, directed by Marion Brunson, have seen Elba. As they toured the river, they got a good look at the island of Elba, off the coast of Italy in the Mediterranean. Out city got its name from this island where Napoleon was exiled. The group spent last weekend in Switzerland and Austria where they enjoyed the Alps. This week will be spent in Paris and London and they will return home next Monday night.

## Rubella Vaccine Important

Although Rubella, or German measles as it is commonly called, is a relatively mild disease in children, an expectant mother has a 50-50 chance of delivering a defective child if she is infected with the disease during the first three months of pregnancy.

## Morning Party

## Compliments

## Bride-To-Be

Miss Karen Olsen of Chattanooga, Tennessee, bride-elect of Mr. Joel Inman of Elba and Birmingham, Alabama, was honored with a morning party on Saturday, July 25, when Mrs. Bonneau Rowe, Mrs. Leroy Miller, and Mrs. Boyd Murphree entertained at the home of Mrs. Murphree on the Troy Highway. Mrs. Murphree greeted the guests and invited them into the party rooms which were decorated for the occasion with seasonal flowers.

Punch and party dainties were served by the hostesses, after which a gift of an engraved silver cake knife was presented to the honoree. Attending were Miss Olsen; Mrs. L. F. Inman, mother of the groom-elect; Mrs. Fred Crampton; Mrs. Fred Smith, Jr.; Miss Becky English, Mrs. D. M. English; Miss Tina Anderson; Mrs. Kaemper Anderson; Miss Harriet Collier; Mrs. Bancroft Cooper; Mrs. Robert Cooper; Mrs. Edd Cooper, Miss Sheryl Cooper, Mrs. Phillip Bernstein of Montgomery; Mrs. Robert Marshy Mrs. Jim Williams, Mrs. Mace Cook; Mrs. E. M. Warr; Mrs. Robert Cannon, Mrs. Oliver Williams, Mrs. Tom Dyess; Miss Cecelia Cooper and Mrs. Ellis Brazelton.

This annual event will be held next year in the home of Mr. Bill Fuller, Route 1, Samson on the first Sunday in July.

## Hunting Dates Announced For Alabama

Willey Poundstone, Chairman, Alabama Conservation Advisory Board announced Alabama's 1970-1971 hunting seasons Monday. The seasons and bag limits were set by the Board at their semi-annual meeting in Decatur.

DEER: One day, Bucks only with bare antlers visible above natural hairline. By dog or stalk hunting. Guns - Nov. 15 - Jan. 15, Bow and Arrow (No Cross Bow) - Oct. 15 - Jan. 15.

## "RAISING" CHILDREN BY THE BOOK

We have a choice in America... a choice denied millions who live under godless communism. Here is a man who is exercising that choice!

He believes that children growing up in the free world ought to know the Author of Liberty. He wants his son and daughter to cherish and embrace the spiritual insights God has given man.

This father introduced his children to the Bible when they were very young. Today the Book of the Ages is their friend. Tomorrow it will be their guide through the frightening age to which they have been born.

The American Bible Society - supported by earnest Christian citizens and the churches they attend - enables millions of families around the globe to share our heritage of Truth with this new generation on whose spiritual fiber rests the hope of the world.

POOR ORIGINAL

By Tom Casaday, County Extension Chairman

**CORN DISEASES**  
I think just about every farmer in the county now is familiar with southern leaf blight on corn. It affects the older leaves on the bottom first and then moves up the stalk. I certainly hope that by next year we will know which varieties are the most resistant to this disease. Folks who have older corn like Roy Barlow in the Basin Community will be putting it into the silo in the next few days. Barlow has 75 acres which he will use for silage to winter his beef cattle herd.

**LEAFSPOT CONTROL**  
Leafspot disease on peanuts, if not controlled, is going to cause a lot of peanuts to be dug early. This means light peanuts, lower grades, lower rates and low income. Believe me, if I had a field of peanuts I would keep those leaves covered for the next three to four weeks with either a dust or spray. And I believe I would be putting money in my pocket. We have good prospects, to seed will be next year's. Let's don't make the mistake of thinking that leafspot will just disappear, getables will bear longer.

**GARDENING TIPS**  
If you are a typical gardener, your garden now is either a dust or spray. And I believe I would be putting money in my pocket. We have good prospects, to seed will be next year's. Let's don't make the mistake of thinking that leafspot will just disappear, getables will bear longer.

and will be easy to harvest and won't be so depressing.

One of the good truck crop gardeners in the county, Louis Jones of New Brockton, always destroys vegetable crops as soon as they are through bearing. Doing this helps control disease, insects and nematodes. Incidentally, there is still time to plant tomatoes, beans, squash and cucumbers in Coffee County.

**CATFISH FINGERLINGS**  
CATFISH FINGERLINGS  
H. A. Nolin of Route 1, New Brockton is getting pretty heavily involved in catfish fingerling production. With the decrease in regular fishing due to mercury poisoning the catfish

**Calcium Is A Must In Peanut Production**

To produce a good crop of peanuts, calcium is a must in the pegging zone. Large seeded peanuts such as the Virginia-type require large amounts of calcium.

Extension Soils Specialist Dr. Walter Sowell says calcium must be available in the pegging zone because each individual peg or pod has to absorb the calcium it uses in producing a peanut. The peanut plant roots can't absorb sufficient calcium for the pod. If a soil test was made, Sowell advises following his recommendations for supplying adequate calcium. But if a soil test wasn't made and the amount of calcium in the soil is unknown, apply 500 pounds of gypsum or basic slag per acre at blooming. Apply the gypsum or basic slag in a 12 to 14 inch band on the peanut vines. Contact the county Extension office for more details.

market will probably get involved in this business which requires a lot of hard work.

H. A. Nolin of Route 1, New Brockton is getting pretty heavily involved in catfish fingerling production. With the decrease in regular fishing due to mercury poisoning the catfish

**Calcium Is A Must In Peanut Production**

To produce a good crop of peanuts, calcium is a must in the pegging zone. Large seeded peanuts such as the Virginia-type require large amounts of calcium.

Extension Soils Specialist Dr. Walter Sowell says calcium must be available in the pegging zone because each individual peg or pod has to absorb the calcium it uses in producing a peanut. The peanut plant roots can't absorb sufficient calcium for the pod. If a soil test was made, Sowell advises following his recommendations for supplying adequate calcium. But if a soil test wasn't made and the amount of calcium in the soil is unknown, apply 500 pounds of gypsum or basic slag per acre at blooming. Apply the gypsum or basic slag in a 12 to 14 inch band on the peanut vines. Contact the county Extension office for more details.

market will probably get involved in this business which requires a lot of hard work.

One of the good truck crop gardeners in the county, Louis Jones of New Brockton, always destroys vegetable crops as soon as they are through bearing. Doing this helps control disease, insects and nematodes. Incidentally, there is still time to plant tomatoes, beans, squash and cucumbers in Coffee County.

**Covington Electric Cooperative Inc.** ANDALUSIA / BRANTLEY / SAMSON

MRS. SYLVIA D. TERRELL, Elba High School Home Economics teacher, is shown enjoying a buffet dinner during the Nutrition Education Workshop held at Tuskegee Institute. Mrs. Terrell (far right), Mrs. Helen B. Scott, (fourth from right) Columbus, Georgia, formerly of Elba and sister of Mrs. Terrell and Mrs. Ruby Stinson, (far left), Elba, attended the workshop with some 75 participants from Alabama and Mississippi. The week was spent discussing nutrition content of elementary and secondary school curricula in Alabama. Consultants and lecturers during the week included in addition to the Tuskegee faculty: Mrs. Jane Stokes, an administrative dietitian at the Veterans Hospital in Boston, addressed the opening session of the workshop; Mrs. Electa Woodford, an assistant state supervisor of the Atlanta School Food Service Program; the administrator of the nutrition section of the Florida State Board of Health; and Miss Emma Clinckscale, director of nutrition services for the Alabama Department of Health.

MIDDLE AGED AT 27?

In 1920 when the average life expectancy was 54, a person 27 had lived half his life. Now thanks to amazing scientific discoveries, the average life expectancy is over 68 years.

Medical science has also made advances which permit longer life of today to be a healthier, more pleasant one.

See your doctor for the latest developments in geriatrics. If he should prescribe one of the new reliable drugs... see us for the best prescription service possible.

## COFFEE NEWS & CHAT

BY SARA HUTCHISON

SHOPPING FOR TWO

It's often easier to shop and cook for a family of four or six than for a household of one or two. Senior citizens, bachelors and newlyweds often run into the same food shopping problems - the large economy size is too big, the cuts of meat are too much and the frozen foods are impossible to divide into small units.

Dried products such as dry milk, coffee cream, soup mixes and potato flakes may help the small family shoppers. The amount of a dried product needed for a meal can be measured and the rest stored for several weeks or months in a cupboard.

Fresh fruits and vegetables may also present a spoilage problem for the one or two member family. However, produce managers may break and wrap packages to give you the desired amount of produce if you ask. Speak up and let your wants be known at your supermarket.

FLOWER BEDS

Many flower beds and gardens take on a shabby appearance this time of year. To keep your flower beds looking best, keep faded annual blooms cut. It is best not to drop these old blooms in the bed because they will detract from the bed's beauty and will also serve as an ideal place for a build-up of diseases and insects.

Check the soil for moisture. If the soil is dry, water the plants. When working in such places don't pick up boxes or other containers without your first looking. These spiders are like old clothing or shoes that haven't been worn for a while. Before wearing this clothing, shake it out and check the pockets. Be careful when handling old feed sacks that have been piled up and have been left for a while.

Ledbetter says that most spiders can be controlled if you use a house hold spray which contains the following: five-tenths percent dieldrin, or one percent lindane.

To prevent spiders from coming into the house, spray around the window and door facing and ventilators. Regular use of the vacuum cleaner will help eliminate spiders.

When using chemicals to control spiders, be careful not to contaminate food, water, dishes or utensils.

COVERINGS IN KITCHEN

Easy care and attractiveness of a kitchen depend to a large extent upon the choice of surface coverings.

Light colors and smooth surfaces can make caring for the kitchen much easier. When selecting a counter top, I'd suggest choosing materials that are durable, easy to clean and

stains, scratches or cuts on the surface of food in the freezer--a full freezer will stay cold many hours longer than a freezer only a quarter full. Meat will not warm up as fast as baked food. The longer the food will stay frozen, the longer the food will stay frozen.

You might consider covering the freezer with blankets, quilts or some other covering. It will also help to put crumpled newspaper or excelsior between the cabinet and the blankets. Do not allow the coverings on the freezer to cover closed. How long ver the air-vent openings, the food in your freezer (The power may go on un-

will be necessary, if your food has partially or completely thawed before you discover that the freezer is not operating you may refreeze foods if they still contain ice crystals and are still cold--about 40F. Meats and poultry become unsafe to eat when the color or odor is poor or questionable, get rid of the food. However, with vegetables, shellfish and cooked foods it is more difficult to tell if they have spoiled--you can't tell by the odor, if there is any question, get rid of it. Do not use melted ice cream.

# Washington Report

by **GEORGE ANDREWS**  
Member of Congress  
Third District of Ala.

"Watch what we do instead of what we say." So goes the new slogan of the Nixon Administration, and it fits like a glove. If that statement, made by John Mitchell, part-time Attorney General and politician, sounded like an open admission that the Nixon Administration plans to say one thing and do another, it must have been the truth. The outrageous action by the Internal Revenue Service threatening the tax-exempt status of newly formed private schools in the South is certainly a case in point.

As recently as February of this year, President Nixon gave assurance that he supported the continuance of the tax-exempt status of all private schools.

Now, we get the flip-side of the record, and it's still a Nixon recording, but a different tune. Now, hard-working law-abiding Southerners cannot choose to pay for the education of their children in private schools without being penalized by the Federal Government.

IRS Commissioner Randolph Thayer obviously ignored the pertinent sections of the Internal Revenue Code, which Congress writes, Section 501 (c) (3) says that a non-profit organization is exempt from federal taxes if it is organized and operated exclusively for religious, charitable, scientific, literary or educational purposes.

That is the law, and that is all the law says. It does not even consider the question of whether such institutions are made up of all whites, all blacks, all Catholics, all Protestants, all Jews, or whatever -- nor should it.

I have introduced legislation which if enacted would overturn this despicable IRS ruling, by insuring that tax-exempt status would not be denied a private school because of its admission policies, requirements for admission, or composition of the student body or faculty.

In order to prevent the very discrimination that is now being practiced by the Nixon Administration, my bill says that if tax-exempt status is refused to any school because of its admission policies, requirements for admission, etc., it will be refused to all such schools.

As everyone must know by now, white Northerners avoided integration by flee-
